

Company: Small Data Garden
 Product name: IOTSU® Rugged GPS for LoRaWAN®
 Product code: IOTSU® L2R L05
 Rev: 1.4_13thJan 2022

IOTSU® Rugged GPS for LoRaWAN®

IOTSU® Rugged GPS is a wireless device that measures GPS location data combined with acceleration. IOTSU® Rugged GPS is designed for tracking assets, monitoring critical transportations and cold chains, and optimizing machine and vehicle maintenance.

In addition to location tracking IOTSU® Rugged GPS can measure temperature, tilt, and shock. The device can also be remotely configured with wide array of downlink commands to help make the device fit various use cases. Example parameters that can be adjusted include temperature, tilt and shock thresholds, which trigger the device to send an alarm message when exceeded.

IOTSU® Rugged GPS can be mounted on any object such as a deliverable package, container, or vehicle. The device is maintenance-free and encased in an industrial quality casing resistant to dust and splatter. Installation is fast and easy.

MEASURING AND RECORDING:

- GPS, Tilt, Shock &
- Temperature

TECHNICAL SPECIFICATIONS:

| | | |
|----------------------|---|--------------------------------|
| Dimensions | : | 140 x 60 x 40 mm |
| Weight | : | 225 g with battery |
| Sensors | : | GPS, Acceleration, Temperature |
| Transmission cycle | : | Configurable, alerts |
| Connectivity | : | LoRaWAN® |
| Battery | : | 2x size C 3.6 V, replaceable. |
| IP Class | : | IP67 |
| Operating Conditions | : | -30 °C...+50 °C |
| Mounting | : | Adhesive tape, Screws |

IOTSU® products shall not be used in any other way than their intended use defined by Small Data Garden. IOTSU® products are designed for LPWAN technologies collecting non-critical information. Small Data Garden will not be held liable for any damage which may result from inaccurate readings and delayed data transmission. For more information see SDG's General Terms and conditions for the supply of products and Legal Notices.

Legal notices

The user right of Small Data Garden's firmware is limited to the version and specifications confirmed by Small Data Garden. Any unauthorised usage of device is prohibited and must be suspended by request of Small Data Garden. In addition, Small Data Garden is entitled to charge for unauthorised usage including administrative and solving cost.

Small Data Garden shall not be responsible for damages caused by the user connecting the Products and/or using the Products in any other way than their intended use nor for any damages caused by materials or product design defined by the Client or by the working or manufacturing processes the Client has determined.

IOTSU® products are designed for collecting non-critical information for optimising energy consumption in long term usage and the products are not intended to be used for life and security critical solutions. We rely on high-quality sensor, component and software suppliers and manufacturers and IT, LP-WAN and cloud service providers.

However, for the reason that accuracy and redundancy is depended among other things on operating circumstances, radiotechnology specifications and coverage, and because Small Data Garden relies on specifications provided by its suppliers, Small Data Garden will not be held liable for any damage which may result from inaccurate readings.

All information, including product design and specifications, in this document is subject to change without notice. Small Data Garden reserves all rights to revise or update information in this document without prior notice. Small Data Garden assumes no responsibility for any errors that may appear in this document.

For more information see SDG's General Terms and conditions for the supply of products.
